### Advertising Tips:

To get the maximum return and to monitor the success of your advert put something specific into the advert that will enable you to link the customer back to where they saw the advert.

Great examples of this are sales promotions such as discounts or buy one get one free type of offers. Make sure you put a time limit on it so that the customer needs to act quickly.

Remember it often takes a potential customer several exposures to your product and company before they purchase.

Concentrate on the key points as to why the customer should act now.
